

Ready for the 1950 US Federal Census: *Don't Miss It Because April 1st Is Finally Here* at <http://www.kuzmich4.com/Facebook/1950%20Census%20MyHeritage.pdf>

On the eve of the 1950 U.S Census release, I'm excited to tell you that not only will the census records be available to explore on **MyHeritage** very soon and for free, they have also just released a free tool that will help a great deal as you prepare to dive in: the **Census Helper™** by clicking [here](#). Just received a very informative press release by Daniel Horowitz, genealogy expert for My Heritage which helps solidify why it is important to have your multiple accounts with the "Titans" of family history websites because **FamilySearch, Ancestry, My Heritage and Find My Past** can all work potentially seamlessly together in producing significant contributions to your genealogical endeavor relative to your FamilySearch account.

My Heritage's Census Helper™ scans your tree and automatically compiles a list of individuals appearing in it who are very likely to be found in the 1950 U.S. census, along with relevant details. Armed with this list, you'll know exactly which family members to search for in the newly released records, and your research will be much more focused. You'll also be able to research those individuals in the census records with the click of a button.

I encourage you to recommend to anyone who doesn't have a tree on **MyHeritage** to upload it as a GEDCOM and use this tool for free, so they can get a head start on your research.
