

## [Special Resources: 3 ways the Family History Library is bringing resources into your home Both During & After the Coronavirus Pandemic!](#)

Coronavirus have you stuck at home with local family history libraries closed. Fear not, **FamilySearch** is now offering sign-ups for free one-on-one online consultations with research specialists from the **Family History Library** in Salt Lake City. The consultations join existing live webinars and the online Help Center as some of the ways the Family History Library is making its expertise and resources available, despite being closed due to COVID-19 concerns. They are designed to continue far beyond the pandemic so people don't feel the need to travel to Salt Lake City for research help, said Lynn Turner, manager of the Family History Library. "What we're really looking to do is bring the library and knowledge of experts to people, instead of looking to bring more people into the library," Turner said. "We're trying to open our doors and share the resources of the library more worldwide and to a broader audience."
