

#GiveThanks to My Wife: Roslyn C. Kuzmich

I am grateful for my wife, Roslyn, of 48+ years with four children and 11 grandchildren. Together although we are very different from each other, we work together as a unique, dynamic team. It has been an exciting adventure from the very beginning at the Los Angeles Temple, in establishing our family, serving in the Church along with many exciting developments in my career with extensive family history travels to Eastern Europe along with extensive travels to 35 foreign countries on six continents on a public-school teacher's salary plus all four children earning master's degrees including Roslyn. Somehow, I survived it all with many successful endeavors, mainly because of Roslyn who knows how to "Stick to the Course" in exceeding my visions of expectations. Rarely has she ever questioned my crazy aspirations even when success was not always imminent. Only because of her, I have achieved beyond my potential through a Ph.D. degree, 800+ nationally published articles, three landmark jazz education textbooks, seven years as a Church employment missionary including serving with me for 4 years, teaching together at Shandong University in Jinan, China and much more even with a virtual choir for our ward's upcoming Christmas worship services. Over the years, I have amazed massive temple and family history successes. The title of our recent Denver-area 16-stake fireside is "A *Genealogy Journal from Zero to Hero*" which was replicated/expanded by my son with a similar fireside in the Los Angeles area just last weekend.

Closing Comment

Without Roslyn's stalwart support, my genealogical pursuits would be only a mere figment of my imagination. Our time-line in pursuing these endeavors would have been lost without ever actively involving all of our children. The Lord made it all happen with our children's missions in Germany and Russia and with Roslyn's consent, our family history was on a straight and narrow path for success without any hesitation! Proceeding this plan was 26 years of diligent preparation with my American genealogical pursuits. And today, the Foothills Ward Temple & Family History Facebook Group is the result to inspire all of our faithful followers. *Forward March Together* is our theme. Don't hesitate as this is the life story of the John Kuzmich, Jr. Family which hopefully can inspire each of you in your most challenging family history pursuits.
