

## He Who Hesitates Misses Golden Opportunities

Love our July 10, 2019 family reunion photos that Facebook sent unexpectedly back to me recently.

They motivate my family history & temple work. I encourage you to gather & share your priceless photos. Gathering & posting photos is easy to do on Facebook, and on [FamilySearch.org](https://www.familysearch.org) with this 60 second [video clip](#) and also on [Forever.com](https://www.forever.com) with these easy how-to clips 90 second [video clip](#) 4:30 minutes [video clip2](#), which you can uniquely share photos of both living and deceased family members.

You are living your family history every day in small and big moments. Yours is the family history of future generations. Start now while those moments are fresh. Remember, unidentified photos are wallpaper in two generations.
