

[Definitive Cure: How To Start Your Family History With The Latest Tools and Techniques and Always Be Current](#)

No matter at what level you are as a genealogist, we all can become easily outdated because we are living in the 21st century. And that can also occur with avid genealogists as well.

How Good Is The Family History Guide?

What I find almost every time I give genealogical presentations is that many people are "interested" in genealogy but either have no idea how to get started or do not know how to progress past the "casual interest" stage. I often talk to people who pull out a stack of paper and say something to the effect of what should I do now? The answer to both these questions and many others is simple: [The Family History Guide](#).

How effective is [The Family History Guide](#)? Well, it has been used now for years since 2015 to teach the missionaries at the Brigham Young University Family History Library and some of the missionaries at the Salt Lake City, Utah, Family History Library. It is used now by thousands of people around the world to advance family history and genealogy in a major way. It is an official training partner of [FamilySearch.org](#).

Without any hesitation, I recommend you follow the primo self-paced family history instruction offered through *The Family History Guide* located at [The Family History Guide](#) and click on **[* GET STARTED HERE](#)**. Check out what creative options are available. Note: they will always stay current because this web site is dedicated to family history and is an associated member with FamilySearch, Ancestry, MyHeritage and Findmypast as official training partners. Closing Comments

Technology is constantly changing so all of us have family history needs that may need to be updated periodically. The secret is to stay young and creative. Easier said than done? But **The Family History Guide** will always be updated so there's no guess work except you have to get started. Yes, it can be that simple if you are willing to take the first steps. If you don't know how powerful the **The Family History Guide** really is, check out their [site map](#) and you will not be disappointed.

This Facebook group is loaded with self-paced instruction as this particular posting illustrates even if you don't think you need any help. Fun can be experienced with success so let's get started with this posting. Start clicking and please let us know which click(s) were the *giant steps* for you. Maintaining a Facebook group can be a tricky task without input from our faithful followers. Please let us know this through your comments as to which postings are most relevant for you. For example based on the number of recent reads, it appears that the photo restoration and Lisa Louise Cooke postings are of low priority while my "honey-due" postings have twice the readership and interest to learn more about my personal testimony for family history.
