

## Making Memories Special for the Family and Future Generations

On June 5, 2022, my son, Quinn, Roslyn and I all visited Joanna's home in Beverly Hills to meet with our Great Uncle Fred at the tender age of 102 years as of May 30, 2022. We learned that he earned a Bronze Purple Heart Medal of Honor during World War 2 in Italy where he as wounded with shrapnel which is still inside of him.

At his age, he looks fantastic and his mind is much sharper than mine and better looking than me as well. We all had great conversations with him which is a very special keepsake blessing to share with ancestors as well as with all of my children and grandchildren and beyond as a special generation for all of us to aspire to.
