<http://www.kuzmich4.com/Facebook/New Look for FH Guide.pdf>

Fortunately in family history, significant progress and changes are the norm because it is a living-art form with an audience that warrants updates and improvements. Please check out the recently revised home page for [The Family History Guide at https://www.thefhguide.com/](https://www.thefhguide.com/), and you'll notice a new look. There's one cover photo now, with a centered layout for the text and buttons. On phones, the single photo makes for less scrolling. The photo may be changed occasionally for variety. The three buttons are numbered in suggested order of use: 1 for the Overview video, 2 for the website's Tour, and 3 for the Get Started page. The top menu works as before and is basically unchanged. ([See all tips at https://thefhguide.com/tip-of-the-day.html](https://thefhguide.com/tip-of-the-day.html).) For those of you who desire a step-by-step beginner's course at <https://thefhguide.com/index-begin.html>, this URL is a must because it is so user-friendly with so much self-paced instruction.
