

[Don't Procrastinate Your "Golden" Family History Opportunities](#)

Just received an email from my Polish genealogist: "*Here in Poland all cultural institutions, archives, and libraries are closed.*" Thus, opportunities to do original research in local churches doesn't exist today or in the near future. But do not neglect on-line resources as cited below. Somehow, it can be easy to procrastinate windows of opportunities in our lives. For example with regards to family preparedness, Ezra Taft Benson, while serving in the Council of the Twelve during President Kimball's presidency in the 1970's, clearly stated that preparations are essential whenever transportation, finances, health and other natural calamities occur that can cripple us all: <https://www.youtube.com/watch?v=fkWQMQtZmw> (17 minutes video clip at General Conference). To help Americans today, Congress just passed a 2+ trillion dollar economic stimulus bill to help our citizens survive the recent coronavirus economic disaster that is presently effecting many of us world-wide.

With regards to family history in the USA, consider using the National Archives at: <https://www.archives.gov/>. It is a free, powerful resource!

In Europe, consider using these on-line resources
