

## Revised FamilySearch Training Tutorials and Coronavirus Family History Activity2

I hope and pray that you and your families are safe during these challenging times! I also hope you are taking advantage of the extra time to do Family History and to help others do their Family History. Bob Lathen of the Littleton Family History Center has done it again with updates to his already excellent FamilySearch training tutorials. Attached are 1) a newly revised [Family History Level 5 Self-Training](#) and 2) the [Coronavirus Fun Family History Activity](#) that was previously sent to you. The Coronavirus activity has had rave reviews, so I hope you take the 20 or so minutes needed to complete this valuable activity. Contact me if you need another copy of the Level's 1-4 Self-Trainings.

Some that are new to FamilySearch or that work with patrons new to FS often see a blank/generic portrait picture on the patron's person page or on some of their ancestor's patron pages. The attached Level 5 Self-Training teaches you how to attach a real portrait picture to person pages within FamilySearch. It will take just a few minutes to learn. Please use what you learn to teach your patron's (for now using various virtual teaching methods) how to add portraits to their FS person pages.

Many thanks for your continued efforts! Be safe!
