

[RootsTech 2020 Free Livestream Schedule](#)

If traveling to Salt Lake City isn't an option for you, don't worry! Many of the sights and teachings from the conference will be streamed live on their home page—for free! Join the conference daily starting on Wednesday, February 26, at 8:00 a.m. mountain standard time, and enjoy learning from presenters such as Crista Cowan, Blaine Bettinger, Jenny Hansen, and more! General sessions featuring keynote speakers will also be streamed. Join the conversation happening on social media using #NotAtRootsTech. You can view the full streaming schedule below. All times are listed in mountain standard time. If you need help calculating the time difference to your time zone, visit [TheTimeZoneConverter.com](https://www.timezoneconverter.com). Sessions will be available to view on demand after the livestream ends.

The daily free livestream schedule is now posted at: <https://www.rootstech.org/salt-lake/live-stream-schedule> for Wednesday through Saturday, February 26, 27, 28 and 29, 2020.

Closing Comments

The free virtual streaming option is the best way to get oriented to the magic of what the RootsTech conferences are all about for those who have never attended. I promise you that you will be motivated by the presenters. For each of four days, you can view between 5 and 6 sessions at this conference with no financial obligations. All you need is a smartphone, tablet or a computer with Internet connectivity. The photo below is of my DNA specialist, Diahn Southard, who will soon update my DNA history since I was fortunate to have my only sibling, a sister, take a DNA test shortly before she passed away. I am now the oldest living person of my direct ancestors. And soon I will have an accurate update to my previous DNA tests. Diahn will be presenting four DNA breakout sessions at the RootsTech 2020 conference that will have standing-room attendance. And virtual streaming means you can have a guaranteed seat to attend her sessions while I may not be able to get in the room since she is that popular and well known.
