

Training 7: New Merging Features In FamilySearch.Org

The world keeps changing. Sometimes for the better and sometimes for the worse. Fortunately, the church keeps on top of things and we can stay ahead of the coronavirus in more ways than one. In the field of genealogy, we are making progress every day as can be attested by the abundant recent postings on this Facebook group during these pandemic times. You have perhaps noticed that FamilySearch has recently changed/improved their **Merging process**. The attached video effectively teaches the new merging features (some will surprise you)! Therefore, your Level 7 Self-training is to simply view the attached short (10 minute) video by clicking [here](#). I think it is awesome. Check out the video and let me know what you think. The magic of this Facebook group is to share ideas and fortunately Hugh Christensen and I are not running out of ideas and concepts to share with you! Hopefully others can contribute as well. Please pray for the Gift of the Holy Ghost so there are some inspiring postings forthcoming. That's how I am able to provide postings consistently.

After that, we can then assist our members how the new merging process works. I thank Bob Lathen from Littleton Family History Center for bringing this important FamilySearch improvement to my attention. Please don't hesitate to share any new developments for the followers of this Facebook group. We are all students of life in which all of us need to progress in what we do. And family history is a specific critical area for our eternal progression.

I hope you are all making some family history progress on your own family lines which is timely important for those who need help which is a high priority of this Facebook group! **Make it a goal to invite/help someone new with their family history work!** Thanks for all you are doing! Don't hesitate to contact your ward temple and family history consultants for assistance who have been called and set apart to assist others. Zoom videoconferencing software can be a difference maker at this time. Together, we can all safely get through this coronavirus pandemic crisis. Having so much leisure time is a distinct advantage at this time and hopeful that the recent posts will give everybody further motivation and heart that we can keep up with the changes and make a difference in our lives and not just for now but for forever. Thank goodness that we have such technologies and encouragement readily available.

! Merge Warnings

- These 2 people have been previously unmerged or restored. This may indicate a common merge mistake that has been fixed before.

Possible Duplicate	Surviving Person
Information in this column will be deleted at the end of the merge.	Information in this column will be saved at the end of the merge.
