

[Here Are Other Photo Restoration Alternatives to Improve Your Treasure-Chest of Family Memories Digitally](#)

I love choices in Life-Making decisions which is much like the Gospel Plan in which agency is central to ones freedom and liberty. Believe to not, there are now other excellent competitive products for enhancing your family photos, memories and documents. Though it is not free, you can alter photos with enhance color, black & white, sepia, records, letters and documents with a single click improvement. Their fine-tune controls are easy to use. You are able to edit/save up to 10 images (photos/documents) with the free trial. You can continue to use the trial after 10 saved images but will only be able to see the side by side edit comparisons - no longer being able to save finalized images.

Should you decide to purchase the software after trying it, you can click on the Buy/Activate "button" in the trial software and follow the instructions for purchase and activation. You will receive two licenses with your purchase enabling you to install the software a second time or on a second computer. You will also receive free updates as they become available. If you are an avid scuba diver, their Land & Sea Scuba is unique as cited below in their photo restorations.

For the full story, go to <http://www.Vivid-Pix.com> for their two photo restoration products: 1) **Land & Sea Scuba** and 2) **Restore Imaging** software. Both products are robust as their examples are cited below.

In the July 27, 2020 of this Facebook group's postings, we covered a similar **MyHeritage** product that can be gotten for free if you have a Church account. See the post for details. To peruse the **MyHeritage** product for comparative features and samples of their photo restoration capabilities, go to [Improve Your Treasure-Chest of Family Memories Digitally: 4 to 6 Seconds for FREE](#) (reads better via the title's link above).

We all have photos that can't win any awards but yet constitute family history memories. And consequently, they are probably not posted for family history sharing. *Together, these two products can literally change your family history stories into more excitement with improved photos. You be the judge!*

THIRTY-TWO NAMED TO "WHO'S WHO"

LEADING SENIORS CHOSEN BY DEANS

With the cooperation of the Deans' Selection Committee, the HUSTLER announces today the thirty-two senior men and women who have been chosen for Vanderbilt's first representation in "Who's Who Among Students in American Colleges and Universities."

The Committee, composed of the Deans of Women, Instruction, Nursing School, Engineering School, and Medical School, with the Dean of Students as Chairman, made the selections at the request of the Student Council. Each school nominated persons according to the ratio which their total number of seniors bears to the University's Senior enrollment. No discrimination was made as to men or women, but the ratio of men and women was a guiding factor.

Each Dean submitted a list of his school's percentage of the University's total quota, and final approval of the list of nominees was given by the entire Committee. Suggested standards were leadership, individual versatility, and outstanding achievement. Overall contributions to Vanderbilt life were stressed, with character and possibility of later success playing a large part in selections.

The Student Council has submitted the selections to the National Committee. The activities of selectees pictured here have been summarized by the HUSTLER staff, with mention made only of those fields and organizations in which outstanding achievements have been made. Minor activities for the most part have been omitted.

Bishop
